Internal deliberative do not cite or distribute

I think that the short answer is "no."

**Deliberative Process / Ex. 5**

**INTERNAL DELIBERATIVE – DO NOT CITE OR DISTRIBUTE**

The concentrations they report in the article are outrageously high.

**Deliberative Process / Ex. 5**

**Subject:** The Meade, NE Incidents More than A Bee Kill

Hi Tom,

Attached is an article on Meade, NE bee kill. Unfortunately it's more than a bee kill. It's likely every branch in EFED has at least chemical involved in this incident, so I'm cc ing the RAPLs. I haven't had a chance to enter the into IDS.

Take care,

Bob
